Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Schmidt (US 5,577,550).

As to claim 1, Schmidt discloses an apparatus for forming a hollow golf club, the apparatus comprising a first mold with plurality of depressions, a second mold having a cavity larger than the first mold, and means for injecting wax (figure 8a); a ceramic core having exterior surface corresponding to an interior of the golf club head (figure 8); the core is fully enclosed by the first and second mold (figure 8); means for injecting wax forms a plurality of protuberances on the exterior surface of the ceramic core.

As to claim 5, the wax can be properly positioned in the second mold.

As to claim 6, injection wax about the majority of the exterior surface of the ceramic core (figure 8).

As to claim 7, first mold cavity includes channels formed therein (figure 8).

Response to Arguments

3. Applicant's arguments filed 6/21/05 have been fully considered but they are not persuasive.

Applicant argues that applicant's present invention is distinguishable over Schmidt, since Schmidt is teaching a process that "occurs after the use of the apparatus". Applicant further argues that Schmidt claims in claim 1 to begin with "providing a wax shell covered pre-formed core body". The present application claims an apparatus for "providing a wax covered pre-formed body". Applicant's argument and amendment is not persuasive. Although Schmidt discloses a method of making a hollow golf club, it requires a golf club's apparatus to carry out the process. Therefore, claims 1 and 5-7 remain rejected.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1725

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
